Dear Vitaliy Bezrodnov,

I am writing this recommendation in response to your request.

The Moscow Nights and Golden Gates combo is a great hit this year. I love the addition of the dancers. The students were very involved in your presentation. I loved that they got to dance and had opportunities to play percussion instruments with the professionals. I thought the singers were amazing and the musicians were versatile in their performing and dancing. The visual of the dance costumes kept our close attention!

As the music teacher for our school, I only regret that we didn't get to share the song Volga Boatmen. Maybe next year you could find the words for one of the dance tunes- and that way we could sing along as you danced!

Thank you for coming to our school.

Laura Chadwick
Elementary music teacher
Bates School.
